

Trust Evaluation

```
graph TD; A[Trust Evaluation] --> B[Objective Trust Evaluation]; B --> C[Subjective Trust Evaluation]; C --> D[Trust-based Federation Algorithm];
```

The diagram illustrates a three-step process for trust evaluation. It begins with a large container labeled 'Trust Evaluation'. Inside this container, 'Objective Trust Evaluation' leads to 'Subjective Trust Evaluation' via a downward arrow. Finally, an arrow points from the 'Subjective Trust Evaluation' step to the 'Trust-based Federation Algorithm' step, which is located outside the initial container.

Objective Trust Evaluation

Subjective Trust Evaluation

Trust-based Federation Algorithm
